MADE IN AFRICA

ABOUT US

Ka Chun Garment Co., Ltd. was founded in 1992 in Chencun—a small town located in the south of China, and has remained in this beautiful location. As we are committed to our roots, we are equally dedicated to our work developing, designing and manufacturing personal safety protective garments and materials. For more than 30 years, we have put continuous efforts and investments into our work, and have achieved great strides. Some of our products have been approved as patented products by the National Patent Office of China.

We are steadfast in our commitment to delivering high-quality, reliable safety solutions under the "Made in China" and "Made in Africa" banners. Our four strategically positioned manufacturing facilities across China and Africa are operated by over 1300 skilled workers and more than 20 advanced production lines. This robust infrastructure ensures consistent product quality, efficient operations, and the ability to meet diverse market demands.

We focus on providing customers with safety products and professional services. While our focus is to ensure our products are safe and functional, we also consider how we can make our products look more fashionable and pleasing to wear.

We sell our products and services domestically and internationally. Our work is guided by key principles and values. These include:

“Create values and extend those values to our customers”

“Be a responsible person and employee, and in turn be a responsible company”

“Keep customers pleasantly surprised by innovations in our products”
